

Parents,

We will be kicking off our TeamWorks Fundraiser Wednesday (**October 18th**). TeamWorks is an online and secure fundraising platform that leverages the power of email, social media, and text to share our customized fundraising webpage. This fundraiser can be far easier than most but it is imperative that each parent or guardian help their player select 20-25 or more quality email addresses for potential supporters, anywhere in the US. Please have your email list ready by (**October 17th**).

Email fact: The contacts that you provide are private and never shared or sold.

Please bring the following:

- **Smart Phone:** Each student will register for this fundraiser using their smart phones.
- **Picture:** Each student will have the ability to upload an image of themselves to customize their fundraising webpage.
- **Emails:** These emails should include each student's parents / guardians as well as people who you think will support our group. These email contacts may be located anywhere in the US. Do not include classmates, teachers and coaches in your list.

Add these emails to your "Notes" on your smart phone or create an email with all of the emails listed in the body and send to yourself. During the meeting, we will copy and paste these emails using TeamWorks. You will delete these email from your phone once entered. .

Note: Once you have this template completed with 20-25 emails, make sure you have all of the contacts saved into your "Notes" on your phone. This is very important and will make for easy access during the kickoff meeting.

Sincerely,

Josh Dent

Participant's Name: _____

Goal: 20-25 emails

We will be using USA Fundraisers / TeamWorks to raise money and we need your participation in this fundraiser. Your goal is to come prepared to our kick-off meeting with a minimum of **20** quality emails. You can use this sheet to help you create your list and I'll be checking to see that this is completed before our kick-off.

Note: It's best that you use this sheet to help think about your Supporters but create a "note" on your phone with the actual email list or email yourself with that same list. We will copy and paste this list into the system during the meeting. All emails are held private.

Example	Email Address		Email Address
Grandparent		Family Friend	
Grandparent		Family Friend	
Aunt		Doctor	
Uncle		Doctor	
Parents Close Friend		Local Business Owner	
Parents Close Friend		Social Club Contact	
Parents Close Friend		Church Contact	
Parent's Co-Worker		Cousin	
Parent's Co-Worker		Cousin	
Neighbor		Past Co-Worker
